

RECYFIX®NC **NEW**

Engineered to be lightweight yet extremely stable.

RECYFIX® NC **NEW**

Engineered to be lightweight yet extremely stable.

1 Requirement

Modern drainage systems must

- permanently withstand to high loads and large forces.
- be easy to install.
- be resistant to environmental influences (frost, heat, humidity).
- comply with DIN EN 1433.

3 Solutions

RECYFIX NC channels:

- channels made of PP for civil engineering
- load capacity up to E 600 according to EN 1433
- maximum security through 8-fold bolt fixing
- very lightweight, quick and cost saving installation.

2 Application areas

- traffic areas for industry
- loading and unloading zones
- car parks
- pedestrian areas
- public areas
- petrol stations

Industrial yards

Loading and unloading zones

Industrial yards

Access roads

Car park

The benefit of **RECYFIX®**NC channels **NEW**

High stability

- stable, durable ductile iron grating
- high quality ductile iron
- 8-fold bolted

= Security

Standards and approvals

- certified to EN 1433
- CE-marking

= Security

Low weight ensures easy handling on site

- much easier handling on site compared to channels made of polymer concrete
- very easy handling and installation
- maximum stability with minimum weight

= Cost saving

prefabricated ready to install

- channel and grating = one part
- no single parts
- easy handling in stock and on site
- cost-effective transportation

= More earnings

High-grade material

- RECYFIX - stable and almost unbreakable
- flexible and particularly resistant material
- withstands high traffic loads and temperature differences in daily use

= Security

RECYFIX® NC **NEW**

Engineered to be lightweight yet extremely stable.

RECYFIX NC channels are certified according EN 1433 and can be installed in areas in which the following loading capacities can be expected:

**Category D 400,
Load CLASS 400 kN**

1

■ Channels made of PE-PP with integrated angle housing, according DIN V 19580 / EN 1433, with groove and tongue connection for exact installation

2

■ stable ductile iron grating made of durable spheroidal graphite iron

3

■ Trash box with 2-sided pipe connection possibilities

4

■ End caps with or without outlet
